Item	Quantity	UM	Part	Description	Price \$	Extension \$	
001	1.00	EA	4590	4590 EGauge w/Acc Troxler Model 4590 EGauge, Nuclear Soil Density Gauge with a Low Activity Source, Exempt from Licensing in USA; 8" (200 mm) rod with 2" (50mm) increments, with the following standard accessories: Model 6760 Moisture Probe, Serial Cable to connect probe if needed, Drill Rod, Rod Extraction Tool, Scraper Plate, AC charger, DC charger, Quick Reference Guide, User manual, Lock w/ 2 keys, Shipping Case. NOTE: With the purchase of the Troxler Model 4590 EGauge, an annual calibration, maintenance, and technology (CMT) fee of *\$450 will be charged 11 months after the ship date of the unit, and then yearly thereafter. The owner agrees to pay this fee within 30 days of the invoice date. The basic maintenance and calibration of the gauge is covered by the fee (freight not included). Also, included are: software updates, hardware updates, wear-part replacement and a leak test once per year at Troxler's service center. An additional fee will be charged at the time of the required source replacement, approximately every 8-10 years. This CMT fee will be paid by the owner annually until the gauge is transferred to Troxler for return or disposal. *CMT Fee subject to change over the life of the agreement.	14,750.00	14,750.00
