Subject: Modify your extension so it's compatible with the version 21.1.46726.0

Modify your extension so it's compatible with the version 21.1.46726.0

We're making changes in the next release (version 21.1.46726.0) of Dynamics 365 Business Central. These changes will render the TroxlerClient extension that's installed in your appraver3651017289-Production environment incompatible.

This incompatibility must be resolved before your environment can be updated to version 21.1.46726.0. You can find the compatibility error details and mitigation steps here.

Extension name: TroxlerClient

Extension version: 2.2.0.46

Extension publisher: AlleTech

Extension ID: ece084bf-d27d-4cd0-b1cf-e563b4b3bbc7

Extension validation result:

PageExt/PageExt_51000_ItemCard.al (11,19) - Error AL0155: A member of type Field with name 'Manufacturer Code' is already defined in Page 'Item Card' by the extension 'Base Application by Microsoft (21.1.46726.0)'.

Fix the extension error

1. Review breaking changes introduced in version 21.1.46726.0 and how to resolve them.

2. Make the required changes to the incompatible extension(s), compile the extension against version 21.1.46726.0, and perform the necessary tests to verify that the functionality is correct.
3. Upload the fixed extension(s) using the Extension Management page in Dynamics 365 Business Central and select the appropriate version for which the updated extension is compatible.

Uninstall the extension

1. Navigate to the Extension Management page in Dynamics 365 Business Central and uninstall the incompatible extension(s).
